

### *Pregnant Woman's Consent Form*

Skin Sense welcomes pregnant women to experience the relaxation and rejuvenation of our services tailored to their special and wonderful physical condition. We care about you and your baby. To ensure that Skin Sense provides the appropriate service to each of our pregnant clients, we ask that you inform us before each service you receive during your pregnancy of any information about your physical or emotional condition that relates to your pregnancy or that could alter the effects of our services on you or your baby.

Pregnant women should not have any of our services that include hydrotherapy, the application of heat or any heated wrap to the body, seaweed or glycolic acid and should not use our steam room or sauna.

Because there are many things that you do or that are in the environment that can affect your pregnancy, you waive, and release and excuse Skin Sense and its employees, officers, directors, shareholders, contractors and agents from, all claims, demands, rights or causes of action for any injury or other adverse outcome resulting from any service or product provided by Skin Sense to you during your pregnancy. This waiver and release is binding on you and any other person who may have a legal right arising from any injury or adverse outcome to you.

If you are uncomfortable signing this form, please inform one of our staff, and we will reschedule you for a service other than a service that requires that you sign this consent.
